General Information

A tropical magic is how one could describe Coco Palm Dhuni Kolhu. Located on Dhuni Kolhu Island, part of the Baa Atoll, Coco Palm Dhuni Kolhu is certainly the ultimate hideaway in the Maldives.

Just 124 km from the airport (a scenic 30 minutes flight by Sea Plane). Set on a beautiful island, the resort is fringed by white sandy beaches, dressed with luxurious tropical vegetation, and hosts a blue crystal clear lagoon for the enjoyment of a vast range of water sports. Coco Palm Dhunikolhu features delightful thatched villas, either dotted among palm trees in carefully planned tranquility or on stilts over the lagoon, with spectacular views of the sea and nearby desert islands.

Room Types

Beach villas and deluxe villas have open air garden bathrooms, for showers at sunrise or at night under the stars.

Deluxe villas are complemented with a sunken bath in the open-air bathroom, and a plunge pool on the outdoor terrace. A four-poster bed with mosquito net enhances the romantic mood of the villas.

Our unique all wood water villas offer extreme indulgence for those who are looking for exclusivity and seclusion. All water villas are fitted with Jacuzzi bathroom overlooking the turquoise waters of the lagoon, plunge pools on the large sundeck, four poster beds and luxurious furniture, fittings and amenities.

All villas provide mini bar, personal safe, tea/coffee maker, hair dryer, IDD telephone, air –conditioning and overhead fan.

Uniquely Maldives - Uniquely Coco

Night-time Escapes

Overnight on a Desert Island (18:00-09:00)

A once in a lifetime experience....

Spend one night together on a deserted Maldivian Island, Robinson Crusoe style. Your experience begins with Romantic Red Sunset journey by Dhoni as you sip a cool glass of Sparkling Wine. And when it comes to having a feast, you'll be just as pleased with an exquisite beach barbecued dinner with a bottle of House Wine. Your own private Chef attentively prepared Fresh Seafood and the choicest cuts of meat tenderly barbecued to be savoured under the stars as the moonlight reflects from the silver sea. The exotic choice of Maldivian Lobster, Tiger Prawns, Sirloin Steak, Lamb Chops, and fresh Reef Fish from the Lagoon will leave you spoilt for choice. After Dinner stroll around the beach to your Rustic Beach Hut which has been carefully prepared for you. This accommodation follows a traditional beach hut style yet still provides some of the comforts of home. In the morning your private butler will deliver your breakfast to enjoy on the beach of your Island before returning to Coco Palm Dhuni Kolhu. This is a Uniquely Coco Experience that will live on long after your vacation is over.

USD 400 for two

Sunset Lagoon Fantasy - Maximum 1 night

Treat yourselves for a night and enjoy the 154 square meters of one of the most exclusive suites of the Maldives, with a superb plunge pool, Jacuzzi and direct access to the lagoon. With unobstructed ocean views, you have a truly romantic setting from which to admire the sunset. Awake to the pleasure of enjoying a champagne breakfast served in the privacy of your Suite. (Please note that this experience is subject to room availability).
USD 495 per room

For Ever Yours - Wedding Package

If marriages are made in heaven, then a wedding at Coco Palm Dhuni Kolhu is live heaven on Earth where you might dream of being stranded. This tropical magic resort fringed by white sand beaches, dressed with luxurious tropical vegetation fulfills all your expectation of an ideal romantic wedding for couples in love. Taking care of the little details that make-up your big day, it is our pleasure to help you turn your dreams into reality. Coco Palm Dhuni Kolhu is the perfect start to a perfect marriage renewing your vows for a lifetime together, as happily ever after begins here. This everlasting memorable event is conducted on the Beach of Embdhoo Island (Desert Island) in absolute seclusion and privacy.

Your day start in the relaxing atmosphere of our Coco Spa and enjoy the pampering treatments of our professional Spa therapists. Our sensational package puts forward various beautifying experiences for the bride and groom with facial treatments, manicures and pedicures whilst taking in the dazzling view of the Indian Ocean. The Bride on this Special day will be pampered with perfect hair and make-up by our experts to make the day “uniquely yours”.

The traditional Maldivian ceremony will be held on a sandy beach with a glamorous wedding decoration that will truly be memorable for a lifetime. Traditional Bodu Beru drums will announce the arrival of the bride. While the groom waits with the Head of Ceremonies, the bride will make her way to her future husband along a pathway of palm leaves.

The beautiful ceremony includes the exchange of rings, a ceremonial wedding certificate and the traditional cutting of an exquisite cake as well as wedding photography. After your dream ceremony, you will be carried away on a 1 hour romantic sunset cruise whilst enjoying champagne and canapés.

To make your big day a memorable and unforgettable one, we will prepare the most romantic candlelit dinner of your lives, upon the return from the sunset cruise. You will enjoy the finest cuisine with your loved one on the beach or in another island venue. Perfecting the dinner, a personal butler and a private chef will cater to your individual needs.

After living your dream of the perfect wedding, you can enjoy your first breakfast as newly weds in the privacy of your own villa. A rejuvenating wellness spa treatment awaits the two of you in the morning after the ceremony for the ideal conclusion of your tropical wedding

Coco Palm Dhunikolhu Environmental Policy

Overview

Coco Palm is committed to maintaining and developing the Island of Dhunikolhu in accordance with accepted eco tourism principles. We pride ourselves as an outstanding example of how environmental sustainability and the retention of the cultural integrity of the Maldivian people can be maintained within a five star resort.

Environmental Objectives

To unify both our vision and our values for Coco Palm Dhunikolhu, all environmental projects from inception have been designed to conserve and rehabilitate Dhunikolhu's natural habitat. The Island's environmental objectives are as follows:

- to ensure regular measurement and monitoring of the Island's progress in terms of international environmental management best practice;
- to build on knowledge gained in our unique island environment, and to continue to develop and pioneer new and innovative eco initiatives;
- to continue to add value to the lives of our local communities by our presence in Baa Atoll;
- to preserve our environment by pursuing ecologically responsible policies and procedures in a manner that promotes the education of our community and a equitable distribution of resources for future generations;
- to provide our guests with a unique opportunity to learn about the pristine and fragile environment of Dhunikolhu Island and it's surrounding islands and reefs.

Communication

Coco Palm's environmental objectives are publicized regularly to our staff, guests and stakeholders through such mechanisms as daily staff meetings, education sessions, training, and guest education programs including island tours.

Guiding Principles

The Island's philosophy includes a dedication to continually reviewing and monitoring its environmental progress in accordance with international environmental management best practice. We are confident our performance will exceed the expectations of our relevant stakeholders and the Maldivian Government in meeting environmental concerns.

We will ensure compliance with all relevant legislation and will work with our suppliers to ensure their products and services are provided to conform to our objectives

COCO COLLECTION

www.cocopalm.com

T: 00 960 334 55 55, F: 00 960 334 66 66, E: marketing@cococollection.com.mv

“We did not inherit our planet from our grand parents,
we are simply borrowing it from our great grand children”

Although the Republic of Maldives enjoys a stellar reputation for its exceptional natural beauty, this status is precarious. The total area of the Maldives spans 34,740 square miles, out of which only 115 square miles constitute dry land in the form of 1,190 islands. The sea, lagoons and coral reefs form the rest of its territory.

Atolls

The islands of the Maldives rest upon an immense structure of corals reefs. The reefs in turn rest upon a foundation of ancient volcanoes that long ago sunk beneath the sea under their own weight. The reefs growing around the sides of the volcanoes as they sank produced irregular ring shaped structures named atoll in the Maldivian language, a word that is now used to describe similar coral reef structures worldwide. There are 26 natural atolls in the Maldives. Coral reefs protect low-lying islands and create enchantment within the lagoon. Beyond the reefs, the sea deepens to more than 2000 meters. With the sea forming most of its territory, the Maldives fame results from being the country most covered with water.

Save our Islands

The Maldives has not remained untouched by conditions that are threatening our planet. Global warming and associated climatic changes, sea level rise and environmental pollution have had their effect on our surroundings. We are committed to creating awareness to help and preserve our marine and reefs ecosystems from pollution and destruction. Here are some ways that will certainly assist us in this endeavor:

No touching or removal of corals, fish or any other sea life from the water.

Touching live coral may injure or kill the coral which may require a decade to grow back.

No littering. Non-biodegradable material may cause long lasting harm to the system.

No shell picking, because it may effect the under water ecological balance.

No use of gloves, knives, harpoons or spears when snorkeling or diving.

No feeding of fish. They become dependent and lose their instinct to find natural food.

When you leave, take with you all your non-recyclable items (Plastics, Batteries, Cans, ...)

Although fishing trips are promoted as one of the very popular excursion / activity amongst our guests, we adopt a serious policy not to catch fish that are under sized in order to prevent overexploitation of local fish population.

COCO COLLECTION

www.cocopalm.com

T: 00 960 334 55 55, F: 00 960 334 66 66, E: marketing@cococollection.com.mv

We also adopt a seafood purchasing policy along the same lines so we do not purchase any undersized species from the local fishermen.

Our Actions

Our goal is to simply preserve the environment so that our entire guest may enjoy its beauty for years to come. Daily we seek opportunities to improve our resort and minimize the impact of its operation on the ecosystem. For your information:

- All our cleaning products are biodegradable
- All wasted water is treated before being poured into the sea.
- We have an efficient sewage plant to treat all used water.
- Water being scarce, we use a combination of desalinated and treated water for watering plants, flushing toilets, etc...

Electricity

Electricity is produced by fuel powered generators. To save energy and minimize exhaust smoke, we would appreciate you:

- Limit the use of your air conditioner. Commune with nature by sharing tropical breeze and if that fails, use your ceiling fan.
- Keep doors to the outside closed the air conditioner is running.
- Turn off the lights that are not in use, and leave only the outside light on when leaving your villa.
- Do not tamper with the light saving device.
- Awareness sessions are conducted regularly and periodically amongst staff to encourage energy saving through various methods.

Waste

Disposal of garbage is another concern on the islands. At Coco Palm, we have the following waste management program:

- Food refuse is separately collected and disposed.
- Combustible articles are incinerated.
- Cans are compacted.
- Glasses are crushed.
- Non-Combustible refuse, ashes, compacted items, and glasses are brought to Thila Fushi, a special land fill west of Male'.
- Conservation efforts are encouraged both in Villas and in the operations.
- We encourage you to take your non-combustible waste with you where the opportunities for effective recycling exist.

COCO COLLECTION

www.cocopalm.com

T: 00 960 334 55 55, F: 00 960 334 66 66, E: marketing@cococollection.com.mv

Water

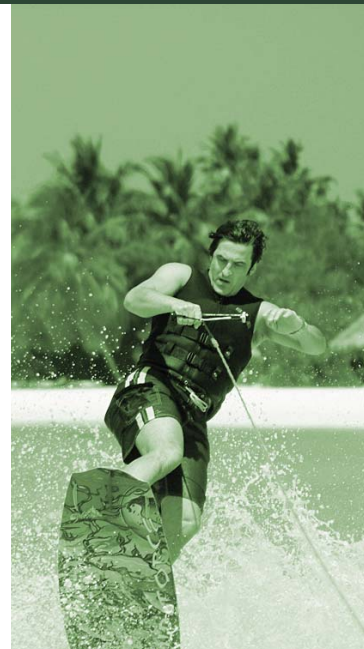

Considering that 99.66% of the Maldives is sea, fresh water supply is still an on going concern. Today only 60% of the country's population has access to safe drinking water. Rainwater storage tanks supplementing well water are common on inhabited islands. Like most resort islands, Coco Palm Resort has its own plant. Water in the toilet is recycled water, so is the water of the splash pools.

Be considerate when showering, shaving or brushing your teeth.
Let your room boy know if you want to keep the towels or change them.

Backup lamp (compulsory for night dive)US\$ 5			

To assure the best possible service, we need to plan our operation in advance. Therefore we have to charge a fee of 50% of the price in case of any cancellation within TWO HOURS BEFORE the dive or course. The dive center has to be informed either in person or by phone. The dive center will not be held responsible if the cancellation has been made through any other department.
